Tech Risk & IT Audit | moving into Product & Design

Gurugram, India · salonikansal.in@gmail.com · linkedin.com/in/saloni-kansal · github.com/saloship · saloship.github.io

SUMMARY

Tech risk and IT audit consultant with a design and product background. I find where enterprise systems break - through ITGC/ITAC testing, ISO 27001 policy work, and cybersecurity and compliance reviews - and I like designing the way out. Comfortable moving between an audit workpaper, a wireframe, and a build.

EXPERIENCE

Associate Consultant - Tech Risk 2024 - Present

EY India · Digital Risk

- ITGC and ITAC testing across enterprise applications; cybersecurity and compliance reviews.
- Wrote a client IT policy set from scratch aligned to ISO 27001, plus a reusable control-to-policy-to-evidence mapping that made later reviews quicker.
- Contributed to the governance workstream of a Software Asset Management (SAM) audit; delivered a 104-control RPA controls audit within a three-week window.
- Built testing templates and a gap tracker the wider team reused.

UI/UX & Graphic Design (early roles) 2022 - 2024

Digital Paani · Zobyte Technologies · Stych (Founders office)

- Translated requirements into user flows, wireframes, and prototypes; 20+ technical graphics and animations.
- Brand and on-brand collateral, technical documentation, and front-end implementation (HTML/CSS/JS) with design and product teams.

LEADERSHIP

Chairperson, ACM Student Chapter 2022 - 2023

BVCOE, New Delhi

- Led a 40+ member student body and 10+ events a year, managing sponsors and logistics.

EDUCATION

B.Tech, Information Technology 2020 - 2024

BVCOE, New Delhi (GGSIPU) · 85.57% aggregate

Smart India Hackathon 2024 finalist.

SKILLS

Risk & Audit	ITGC, ITAC, ISO 27001, IT policy, cybersecurity & compliance review, gap analysis
Design & Product	UI/UX, user flows, wireframing, rapid prototyping, Figma, research
Build	JavaScript, HTML/CSS, Tailwind, Three.js
